

Connect Volunteers | Empower Nonprofits | Strengthen Communities

Team Giving is committed to the safety and well-being of all our nonprofit and community partners and want all to be well and secure. Many of our nonprofits have postponed or cancelled events, ranging from large annual events to daily volunteer activities. We have been monitoring this closely and have endeavored to inform our volunteers of any changes in project availability. At the same time, many nonprofits on the front lines are in dire need, as an increase in demand for their services is taking place, and members of their usual volunteer base are in vulnerable groups who are now staying home.

While all of us are adapting to this new and different way of operating, we are looking to assist in any way we can to support the challenges and obstacles our nonprofit community faces in the next few months. Ideas are being shared amongst the volunteer networks in our region and as soon as we have new information or opportunities, we will put the information on our website.

If you have a desire to give back and aren't sure where to get started, please get in touch. We will do our best to direct you to a place where your helping hands are put to good use during this strange time.
