It always looks odd when we write the new year in numerals, **2024!** Remember the turn of the century, Y2K? Were the computers going to run, the banks going to operate? Here we are 24 years later, and no major catastrophe! Thinking of ways to make our program thrive is part of my daily habit, but at this end of year, it is more pronounced when planning meetings for the entire year. Looking back on my 2023 and wondering how it can be changed for the better, I see it is a common activity. Has there been something on your list for months or even years that you have wanted to do? Maybe something out of your comfort zone? We have Volunteer Coordinators in our office that will match what you like to do with fantastic community partners that need help. Danielle and Bobbi Jo are very happy to talk or meet with you in our office and let you know what our community partners do (they are not all in this newsletter). They will find you just the right volunteer assignment that fits what you have been thinking about. If you want something once a month, sporadically or regularly 3 times a week, they will work with you to find it. *New Year, New You*, take the leap of faith and give some blood, open your home to foster a kitten, help build a new home, read or mentor a child, donate some clothing or help at a Thrift Store! There are so many needs in our community. One or two hours or your week will help! Think

about it and then pick up the phone. We are right here! Pass it on!
