

ENGAGE AR AMERICORPS MEMBER SPOTLIGHT

What motivates you to volunteer with your organization?

The big picture motivator is seeing how many adults and children come back to the organization and thank the camp for helping better their life. However, day to day the motivation was always the laughs and funny moments we would have with the campers and simply seeing them happy and smiling.

How has serving had an impact on you?

I recognize now that most problems people have I will not be able to solve on my own, but being a reliable person that they can trust goes very far in helping. I realized that showing up is the most important part of anything and to continue to show up no matter what.

If you could encourage someone else to serve, what would you say?

I'd probably tell them that there is no amount of your time wasted if it's spent loving and caring for others well being.
