# RECOMMENDED COVID-19 PROTOCOLS FOR SCHOOLS

SACRAMENTO COUNTY PUBLIC HEALTH

## INTRODUCTION

Sacramento County Public Health (SCPH) is providing the following guidance to schools for how to appropriately address situations where students and/or staff test positive for COVID-19 or are potentially exposed to someone infected with COVID-19. This document includes several scenarios for school settings (teachers, staff, and students on campus) and for office settings (district offices or schools with staff, but no students on campus). This document also includes templates for communicating with staff and/or parents about the variety of scenarios that may impact school sites. **SCPH continues to recommend routine COVID-19 surveillance testing and testing for those potentially exposed to someone infected with COVID-19 and/or those experiencing symptoms.**

Recommendations within this document are based on the latest guidance from the Centers for Disease Control and Prevention (CDC) and California Department of Public Health (CDPH). Guidance can change frequently and this document will be updated as CDC and CDPH guidance changes. Schools and school districts should ensure they are using the most recent version of this document to guide their decisions. In the event that your school or district office is experiencing a scenario that is not covered in this document, contact Sacramento County Public Health for guidance on your specific situation.
